Computer-Aided Highway Engineering

Sandipan Goswami, TechSOFT Engineering Services, New Delhi, INDIA and **Pradip Sarkar**, Asian Institute of Transport Development, New Delhi, INDIA

Computer Aided Highway Engineering is aimed at developing professional knowledge in the field of highway engineering with adequate skills in planning, designing and implementation of the highway project with an exposure of hands on training of computer software in designing the road infrastructures, in all countries worldwide. It discusses Digital Terrain Model (DTM) using satellite data including highway geometric, pavement and tunnel design, supported by relevant tutorials. Quantity estimation, cost estimation and production of various types of construction drawings are described in detail with theory and tutorials backed by real project data.
